|------------------|------------------|----------------------|---------|---------|---|
| 584              | 7/3/13           | 2                    |         | General | A more detailed discussion of delta ecosystem health and productivity, water reliability, and the role of water demand would substantially improve support for the Need Section of the Purpose and Need Chapter. This information includes aquatic life population trends and anticipated water demand. Some of this information is documented (e.g. in Ch 5) and readily available and should not be a cumbersome task to include in the Need section. |

| Agency | Agency Type | Response   | Comment Type | Status |
|--------|-------------|--|--------------|--------|
| USEPA  | Cooperating | No change made for the public draft based on lead agency guidance to minimize negotiated changes to Ch 2 | T            | N      |
